- Flexibility to order custom features and colours
- Also available with recycled polyester, organic cotton and Fairtrade cotton for a greener choice
- Phytosanitary products, ISO 27065 certified, are available from our fabric range

# 150 YEARS OF TEXTILE HISTORY

TDV Industries celebrated its 150th anniversary in 2017. Originally based in the north of France, where the company produced textiles for the tyre industry, it was moved to Laval after the second world war to focus on the production of fabrics for professional and protective clothing.

Nowadays, its unique and integrated industrial site brings together weaving, dyeing, printing and finishing, with the aim to clothe and protect people at their workplace, using fabrics produced in Europe and with the lowest environmental impact and the strongest social impact.

TDV Industries is a pioneer in offering fair and sustainable textile solutions and constantly invests in R&D in order to move from today to tomorrow without sacrificing its soul or its values. To become the textile factory of the future, through the digitalisation of trade and data use, the digitisation of processes, and innovations both tangible and intangible.

3 million people protected  
at work every year by TDV  
Industries' fabrics

1 integrated  
manufacturing site

5% of turnover invested  
every year in R&D for the  
past 30 years

Family-owned business with  
0 change in shareholders in  
65 years

with ethical fabrics

3rd Agenda 21 (2018-2022)  
based on the Sustainable  
Development Goals of UN

# POLYCOTTON

## WORKWEAR PRODUCT GUIDE

Polycotton blended fabrics are the most used in the workwear sector worldwide. A great fit for purpose, together with optimum resistance, make TDV Industries fabrics the perfect choice to combine performance and sustainability. The result is that more than 3 million people every year are protected at work by our fabrics.

#### **PHYTOSANITAIRE RANGE**

The fabric is compliant to ISO 27065 standard to protect workers from risks related to the use of pesticides.

# COTTON-RICH

## WORKWEAR PRODUCT GUIDE

Fabrics with a higher cotton content provide enhanced comfort as well as exceptional absorbency and breathability. This, combined with the resistance of polyester, has led to widespread use in the healthcare and hospitality industries, where these factors are crucial for workers' wellbeing.

## ETHICAL PRODUCTS

Corporate Social Responsibility is the core of TDV Industries' presence in the marketplace. This is why we produce and actively promote ethical fabrics which include the use of Fairtrade certified cotton, organic cotton GOTS certified, linen and recycled polyester. By buying from our ethical range, customers actively support a responsible textile production. Our responsibly-made fabrics contribute to the preservation of natural resources, lower the carbon footprint of the production chain and ensure fair conditions for farmers.

**Lead the way to a more sustainable future. Choose Ethical fabrics.**

**THE ENTIRE TDV INDUSTRIES' RANGE OF FABRICS IS AVAILABLE WITH SUSTAINABLE RAW MATERIALS UPON REQUEST.**

# PROVEN QUALITY

# 100% ETHICAL
